## *Clavicula 10<sup>th</sup> anniversary Limited Edition*

Made in Germany

# *Clavicula 10th anniversary*

The Clavicula classic celebrates its 10th anniversary. Excellent stiffness with very light weight – those are the attributes of this technologically advanced system solution which constitutes a sustainable quantum leap in the manufacture of bicycle cranks made of fiber composite with superior safety reserves. Not to forget the timeless design which also contributes to a perfect riding pleasure day after day.

Its convincing functional properties led us to realize the full carbon crank in every desired variation. So Clavicula classic is available as Road, Compact, MTB with three and two chain rings for every use by high-performance riders and on fast race tracks.

THM-Carbones are celebrating this success story with a 10<sup>th</sup> Anniversary Product Edition which is limited to 88 pieces. Individualized by a particular serial number, the edition will be available in the colors blue, red, white and black as well as in the well-known carbon look.

Clavicula 10<sup>th</sup> anniversary Limited Edition with

... Praxisworks chainblades	1.111 €
... plus bearing BSA, ITA or BB386 Evo	75 €
